

**DATE:** 21-08-2018

**TIME:** 2.00 TO 4.00PM

**TYPE OF THE PROGRAM:** soft skill development

**TOPIC:Etiquette & communication in clinics**

**SPEAKER PROFILE: M.C.DAS**

M.Com from Andhra University (1966)

Ph.D from Andhra University for the thesis on "Management of Civic Amenities: A Case Study of Vijayawada Municipal Corporation

Teaching Experience: Teaching Human Resource Management, Principles and Practice of Auditing, Currency and Banking and Accountancy for the past 31 years in Andhra Loyola College, a college run by the Society of Jesus.

**TARGET GROUP/ AUDIENCE:** III BDS

**NUMBER OF PARTICIPANTS:** 89

**Minutes of the programme:**

The program was conducted from 2pm- 4pm for third year undergraduates. This guest lecture program was conducted on 21<sup>st</sup> August 2018 at SIBAR institute of dental sciences, Guntur, by MDEC. An eminent speaker Dr. M.C Das Garu spoke on etiquette & communication in clinics for the benefit of the students entering the clinics. Active participation was observed from the students.

LECTURE ON ETIQUETTE & COMMUNICATION IN CLINICS BY M.C.DAS ON 21/08/2018

**Date:**21-09-2018

**Time:**2.00pm to 4.00pm

**Types of programme :** soft skill development

**Topic: “Communication Skills”**

**Speakers:** Dr. Y.SAMATHA, MDS, Professor, Oral Medicine and Radiology

**Target group/audience:** Interns, Post graduates

**Number of participants:** 114

**Minutes of the programme:**

Effective communication skills are important in an individual's career and personal life. Communicating clearly is one of the most effective skills that one should inculcate. So the session was conducted on “**Communication Skills**” by **MDEC**, SIBAR Institute of Dental Sciences, Guntur. Eminent speaker, **Dr. Y.SAMATHA, MDS, Professor, Oral Medicine and Radiology** has emphasized that using good Communication skills can make an incredible difference in how physicians and their staff are viewed by their patients. If patients feel valued by their physicians and have positive interactions with the staff, they are most likely to become longtime loyal customers. Almost 114 students including interns and post graduate attended the program and had an active participation in an interactive session with Dr. Samatha. The program received an overwhelming response from the students. It would definitely support the students in developing good communication skills

LECTURE ON COMMUNICATION SKILLS BY DR.Y. SAMATHA ON 21/09/2018

**Date:** 15-12-2018

**Time:** 2.00pm to 4.00pm

**Types of programme:** Language and communication skill development

**Topic:** “Significance of Language and communication skills in Dentistry”

**Speakers:** Dr. P. Saravanan, MDS, Reader, Department of orthodontics

**Target group/audience:** I BDS Students

**Number of participants:** 91

**Minutes of the programme:**

Language is the means of communication with fellow beings and the world outside for effectively conveying our thoughts and desires. The communication medium of today’s civilization undoubtedly thrives on the English language. This is because English has for long been the medium of instruction and communication in education, business, international trade, and commerce. It is an international language and is an important factor in today’s globalized world. So keeping that as consideration at Sibar Institute Dental Sciences has conducted a guest lecture “significance of Language and communication skills in Dentistry” to I BDS students in coordination with MDEC by Dr. P. Saravanan, Reader, Department of orthodontics. He enlightened the students regarding the importance of communication skills and role of English in Dentistry. A total of 91 I BDS students has attended the program and shared their insights.

LECTURE ON SIGNIFICANCE OF LANGUAGE AND COMMUNICATION SKILLS IN DENTISTRY BY DR.P. SARAVANAN ON 15-12-2018

**Date:** 15-02-2019

**Time:** 2.00pm to 3.30pm

**Types of programme:** yoga and wellness

**Topic:** “ART OF LIVING”

**Speakers:** Dr. Vivekananda. K, MDS, Professor, Oral and Maxillofacial surgery

**Target group/audience:** Interns, post graduates

**Number of participants:** 111

**Minutes of the programme:**

The Art of Living nonetheless that works to improve and unite the world through self-development using yoga and breathing techniques. Lifestyle modification involves altering long-term habits, typically of eating or physical activity, and maintaining the new behavior for months or years. Art of Living can be used to treat a range of diseases. Meditation-Based Lifestyle Modification (MBLM), a new, complex mind-body intervention for mental health care. It is the first program to intensify meditation practice using classical yoga. The program covers all areas of classical techniques in art of living, considers ethical and spiritual aspects of daily life, and orients participants toward sustained lifestyle modification and all the interns and post graduates were actively participated in the workshop.

LECTURE ON ART OF LIVING BY DR VIVEKANANDA ON 15-02-2019

**Date:**06-06-2018

**Time:**10.00Amto 2.00pm

**Types of programme :** Analytical skill development

**Topic: “Table top presentation on Environmental Pollution”**

**Target group/ audience:** BDS Students and Post graduates

**Number of participants: 36**

**Minutes of the programme:**

Most types of works in our day to day life and especially dentistry require analytical skills. They are used to solve problems that may not have obvious solutions or have several variables. Based on this concept MDEC, Sibar Institute of Dental Sciences has organized a program to improve the analytical skills in students by presenting table tops on the topic “**Table top presentation Environmental Pollution**”. The program is open to all students, and MDEC has received 12 presentations with 36 participants on the day of the program. Active participation is observed from all the Students. The program continued till 2.00pm and ended with distribution of participation certificates to all the participants.

TABLE TOP PRESENTATION ON ENVIRONMENTAL POLLUTION ON 06/06/2018

**DATE:**2\3\2019

**TIME:** 09.30 AM TO 01:00 PM

**TYPE OF PROGRAM:** Human value development

**TOPIC:** “Positive minds”

**SPEAKER PROFILE: M.C.DAS**

M.Com from Andhra University (1966)

Ph.D from Andhra University for the thesis on "Management of Civic Amenities: A Case Study of Vijayawada Municipal Corporation

**TARGET GROUP/AUDIENCE:** I BDS

**NUMBER OF PARTICIPANTS:** 92

**Minutes of the programme:**

“Positive minds” is an interactive session for the I year BDS students which is being conducted every year to instill positive thoughts in their minds and motivate them to perform well in their academics as well as personal life. It is conducted with a motive to improve their personalities as professionals. Over 92 BDS students and few faculty members attended the programme. This program was conducted by MDEC committee, SIBAR Institute of dental sciences. Lastly the program was ended by giving a Certificate of appreciation to the speaker and vote of thanks.

LECTURE ON POSITIVE MINDS BY M.C.DAS ON 02/02/2019

**DATE:**9\3\2019

**TIME:** 09.00 AM TO 01.00 PM

**TYPE OF PROGRAM:** Human value development

**TOPIC:** “Positive minds” - an interactive session

**SPEAKER PROFILE:**

Amarnath Jagarlapudi

Counseling Psychologist

M.Sc. Psychology

PGDM Guidance & Counselling

Senior Marketing & Corporate Training Head

Freelance writer Psychology, Health Care, & Current Issues

**NUMBER OF PARTICIPANTS:** 94

**CONDUCTED BY: MDEC** “Positive minds” is an interactive session for the I year BDS students which is being conducted every year to instill positive thoughts in their minds and motivate them to perform well in their academics as well as personal life. It is conducted with a motive to improve their personalities as professionals. **Dr. Amarnath Jagarlamudi** enlighten on various aspects of life and group counselling. Over 100 participants 94 BDS students and few faculty members attended the programme.

LECTURE ON POSITIVE MINDS BY AMARNATH JAGARLAPUDI ON  
09/03/2019

**DATE:** 08/06/2018

**TIME:** 2:00 PM to 3.30pm

**TYPE OF PROGRAMME:** Professional development

**TOPIC:** ESTHETIC ZONE IMPLANTS: DIAGNOSIS, RISK ASSESSMENT AND DILEMMAS

**SPEAKER PROFILE:**

Dr. Robert A. Levine maintains a private practice in Philadelphia, PA focusing on surgical implant placement, cosmetic oral plastic surgical, reconstructive and regenerative procedures. He graduated from Temple University School of Dentistry and received his specialty certificate in Periodontics from the University of Pennsylvania. Dr. Levine is a Diplomate of the American Board of Periodontology, a Fellow of the College of Physicians in Philadelphia, a Fellow and President-Elect (2021) of the International Society of Periodontal Plastic Surgeons and a Fellow of the Academy of Osseointegration. Additionally, he is a Fellow of the International Team for Implantology of Basel Switzerland and was one of 100 representatives from around the world invited to participate in the ITI 4th Consensus Conference (Bern, Switzerland, 2013), the ITI 5th Consensus Conference (Stuttgart, Germany, 2008) and the 6th 2018 ITI Conference in Amsterdam to establish treatment protocols for implant dentistry worldwide. He has lectured extensively both nationally and internationally, serves on the editorial boards of numerous international scientific dental journals and has authored close to 80 articles and five book chapters on periodontics, periodontal and regenerative surgical procedures, oral plastic surgery, dental implants and LANAP® periodontal therapy. Dr. Levine also shares his knowledge and 30 years' experience with periodontal, prosthodontic and general practice residencies throughout the country as a visiting professor and mentor.

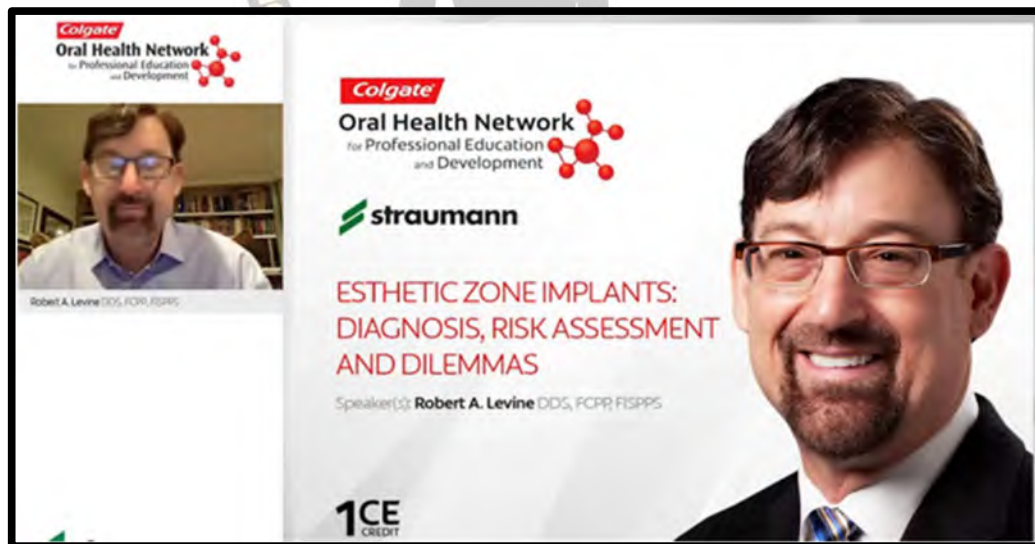

**TARGET GROUP/AUDIENCE:** Interns and Pg's

**NUMBER OF PARTICIPANTS:** 93

## MINUTES OF THE PROGRAMME:

Dental implants in the aesthetic zones are technique sensitive and are largely effects the appearance of the face of the patient. Keeping that as consideration MDEC has organized a webinar at Sibar Institute Dental Sciences, for the interns, post graduates and faculty members. The webinar started at 2:00 PM. This webinar is aimed to the interns in which 61 interns, 28 post graduates and 4 staff members have participated. The topic for the webinar is “ESTHETIC ZONE IMPLANTS: DIAGNOSIS, RISK ASSESSMENT AND DILEMMAS” given by Dr Robert A. Levine DMD, FCPP, FISPPS. This webinar is taken from the Colgate Oral Health Network website. The webinar presented a systemized approach to select a case and planning dental implants in the esthetic zones. This comprehensive approach covers the areas of risk assessment, management of dental implants using multidisciplinary approach. The webinar went on till 3.30AM. After which for about 15mins programme moderator interacted with participants and clarified their questions regarding the topic.

LECTURE ON ESTHETIC ZONE IMPLANTS BY DR ROBERT A LEVINE ON 08/06/2018

**DATE:** 22-06-2018

**TIME:** 10:00 AM to 4.00pm

**TYPE OF PROGRAMME:** Professional development

**TOPIC:** Zonal CDE on **3D Printing- Templates for guided surgeries**

**SPEAKER PROFILE:**

Dr. Prudhvi Reddy, MDS, Prosthodontics

**TARGET GROUP/AUDIENCE:** POST GRADUATES

**NUMBER OF PARTICIPANTS:** 26

**MINUTES OF THE PROGRAMME:**

A zonal CDE was conducted on 22-06-2018 by the Department of Prosthodontics. Mr. Prudhvi Reddy, the speaker enlightened about **3D Printing- Templates for guided surgeries**. The budding Prosthodontists from Drs. Sudha and Nageswara Rao Siddhartha institute of dental sciences and St. Joseph's Dental College have participated in the programme. All the students have actively took part in the question and answer session and group discussion.

LECTURE ON 3D PRINTING- TEMPLATES FOR GUIDED SURGERIES BY DR PRUDHVI REDDY ON 22/06/2018

**DATE:** 13/7/2018

**TIME:** 2.00PM TO 3.30PM

**TOPIC:** TOOTH WHITENING AND SHADE SELECTION

**TYPE OF PROGRAMME:** Professional skill development

**SPEAKER PROFILE:** DR. THOMAS O'CONNOR BDS, NUI, PGC, MDX IS A WELL KNOWN ESTHETIC DENTISTRY PRACTITIONER FROM CANADA.

**TARGET GROUP/AUDIENCE:** Interns and post graduates

**NUMBER OF PARTICIPANTS:** 72

**Minutes of the programme:** When fabricating a restoration, patient satisfaction with the shade match is essential. The patient's level of satisfaction may not be the same as that of the dental practitioner. Esthetic expectations have dramatically increased in the last few years. Color and shade determination are generally considered difficult in dental practice. Most prostheses fail aesthetically owing to improper shade selection. A good understanding of color shade guides is essential for precise shade matching, but the paucity of dental practitioners' knowledge of colour science because of the numerous available shade guides creates a challenge. Keeping this in view MDEC, SIBAR Institute of dental sciences has organized a webinar from Colgate oral Health Network on the topic "Tooth Whitening and Shade Selection". Improving the aesthetics by tooth whitening and different procedures and the complications and advantages of the newer techniques were discussed by the speaker. The speaker also presented an effective way to select the shade for the teeth that is going for a restoration. Program was conducted from 2pm – 3.30pm for interns and post graduates.

A promotional slide for a lecture. On the left, there is a small inset video frame showing a man in a suit and glasses wearing a headset. Below it, the text reads "Dr. Thomas O'Connor BDS NUI PGC MDX". The main part of the slide features the Colgate Oral Health Network logo at the top left. The title "TOOTHWHITENING AND SHADE SELECTION" is prominently displayed in red and black text. Below the title, it says "Speaker(s): Thomas O'Connor BDS NUI PGC MDX". At the bottom left, there is a "1CE CREDIT" logo. On the right side of the slide, there is a large, close-up portrait of a smiling man with short brown hair, wearing a white shirt.

LECTURE ON PROFESSIONAL SKILL DEVELOPMENT BY DR THOMAS O CONNOR ON  
13/07/2018

**DATE:** 14/7/2018

**TIME:** 10.00 AM TO 1.00PM

**TOPIC:** RESEARCH METHODOLOGY

**TYPE OF PROGRAM:** Professional skill development

**Speaker profile:**

PROF. DR. K. RANGANATHAN,

PROF. DR. UMADEVI K. RAO,

MRS. K. NAGA SARITHA (STATISTICIAN),

PROF. DR. P. SRINIVAS,

PROF. DR. M. C. DAS

**TARGET GROUP/AUDIENCE:** POST GRADUATES AND FACULTY

**NUMBER OF PARTICIPANTS:** 122

**MINUTES:** The program was conducted for all pgs and faculty by eminent speakers prof. Dr. K. Ranganathan, prof. Dr. Umadevi k. Rao, Mrs. K. Naga Saritha (statistician), prof. Dr. P. Srinivas, prof. Dr. M. C. Das. Audience were enlightened on various topics like research methodology, study design, sampling methods, multivariate analysis and ethical issues in biomedical research. Total 122 faculty and post graduates participated in the program

LECTURE ON PROFESSIONAL SKILL DEVELOPMENT BY DR K. RANGA- NATHAN ON 14/07/2018

**DATE:** 10-08-2018

**TIME:** 2.00 TO 3.30PM

**TOPIC:** UNDERSTANDING DENTIN HYPERSENSITIVITY: IMPROVING A PATIENT'S QUALITY OF LIFE

**TYPE OF THE PROGRAM:** Professional skill development

**SPEAKER PROFILE:** Dr. Mark Wolff, DDS, PhD

Dr. Wolff has completed numerous international research and oral health assessment programs and has been a lifelong advocate and dental provider for individuals with physical, intellectual, and developmental disabilities of all ages. He has served as the principal or co-principal investigator on multiple benchtop and clinical research projects, investigating dental caries, novel remineralizing agents, dental erosion, periodontal disease, dental materials, and dentinal hypersensitivity. He has published over 100 scientific papers, text chapters, and edited multiple textbooks. Dr. Wolff lectures worldwide and is a frequent consultant to the industry. He has been the principal or co-principal investigator on nearly \$9 million in industrial and National Institute of Health-funded research.

**TARGET GROUP/AUDIENCE:** Interns

**NUMBER OF PARTICIPANTS:** 95

**MINUTES OF THE PROGRAMME:**

An webinar was conducted on 10-08-2018 for interns at lecture gallery from 2pm- 3.30pm on the topic understanding dentin hypersensitivity: improving a patient's quality of life. The course presented the details regarding the biology of dentinal hypersensitivity, the current methods of treating dentinal hypersensitivity and the approaches to treating dentinal hypersensitivity. Dr. Mark Wolff, DDS, PhD presented the lecture.

**TOPIC:REVIEW OF INFECTION CONTROL PART 2**

**SPEAKER PROFILE:**

Dr. Collins graduated as a general dentist from the University of Glasgow and holds an MBA and an MA from Boston University. During her career, she has lived and worked in 5 countries and has given presentations internationally. Fiona is currently the ADA's representative to the Association for the Advancement of Medical Instrumentation (AAMI), a member of the ADA, OSAP, a participant in infection control-related Standards working groups in AAMI, and a Fellow of the Pierre Fauchard Academy.

**TARGET GROUP/ AUDIENCE:** Interns

**NUMBER OF PARTICIPANTS:** 86

**MINUTES OF THE PROGRAMME:**

Infection prevention and control is a practical evidence based approach which prevents patients and health care workers from being harmed by avoidable infection and as a result of antimicrobial resistance. Infection control is becoming extremely important as there has been a rise in the number of Hospital acquired infections. On this note **MDEC** has planned to organize a programme which is very beneficial to understand standard infection control precautions such as hand hygiene and use of PPE as a part of **Review of Infection control**(part -2)at **Sibar Institute Dental Sciences**, to all the interns. Speaker **Dr.Fiona Collins** programme coordinator, enlightened the topic and had a good interactive session with the audience. Around 85 interns attended the programme and actively involved.

**Topic:** REQUIREMENTS FOR HIGHER EDUCATION IN USA

**Speakers profile:** Dr. Muralidhar Mupparapu, DMD, MDS, Dip.ABOMR  
Director Oral & Maxillofacial Radiology Fellowship,  
Professor of Clinical Oral Medicine Division of Oral & Maxillofacial  
Radiology  
Department of Oral Medicine

**Target group/audience:** I BDS and II BDS

**Number of participants:** 166

### **MINUTES OF THE PROGRAMME**

After finishing five years of the BDS course, including four years of academics and a one-year internship, candidates look for opportunities in this field. BDS offers a bright career prospect to students due to the high demand for graduates in India and abroad in various medical and dental science domains. Master's in Dentistry in USA for international students are encouraged all over the world for the wide scope of practice and employment potential.

Dental Science is one of the essential subunits of any health science course, and in present times it has a significant place amongst the health care system. So, with the aim of educating students from initial days of course about various requirements for higher education in USA, we have conducted an Employability skill development Programme organized by **MDEC** at **Sibar Institute Dental Sciences**. The speaker for this topic is Dr. Muralidhar Mupparapu, DMD, MDS, Dip.ABOMR. Around 166 students attended the programme and indepth discussion was done along with question-and-answer interactive session. Finally, the programme ended by handing over the certificate of appreciation and a thank you note.
