MINUTES OF THE PROGRAMME

After finishing five years of the BDS course, including four years of academics and a one-year internship, candidates look for opportunities in this field. BDS offers a bright career prospect to students due to the high demand for graduates in India and abroad in various medical and dental science domains. Master's in Dentistry in USA for international students are encouraged all over the world for the wide scope of practice and employment potential.

Dental Science is one of the essential subunits of any health science course, and in present times it has a significant place amongst the health care system. So, with the aim of educating students from initial days of course about various requirements for higher education in USA, we have conducted an Employability skill development Programme organized by **MDEC** at **Sibar Institute Dental Sciences**. The speaker for this topic is Dr. Muralidhar Mupparapu, DMD, MDS, Dip.ABOMR. Around 166 students attended the programme and indepth discussion was done along with question-and-answer interactive session. Finally, the programme ended by handing over the certificate of appreciation and a thank you note.
