

Name of the Workshop/Seminar: CBCT as a Research Tool

Date: 21-02-2020

Number of Participants: 106

CBCT provides three-dimensional information of oral health problem in wide variety of views and angles which helps in accurate diagnosis and treatment planning. Unlike typical dental X-ray; CBCT provides information on teeth, bones and soft tissue in single scan which helps in detecting a small problem and preventing it to grow further into major issue. The resource person for the Seminar was Dr. Purnachandra Rao Naik MDS, Reader, Department of Oral Medicine and Radiology. Around 106 Interns and postgraduate students attended the Seminar and had interaction with speaker.

Research Methodology for Postgraduates

Date: 19-10-2019

Number of Participants: 104

Research methodology is the specific procedures or techniques used to identify, select, process, and analyze information about a topic. In a research paper, the methodology section allows the reader to critically evaluate a study's overall validity and reliability. It was one of the most comprehensive seminars for all the Postgraduates, regarding different topics related to Research Methodology, conducted by Sibar Institute of Dental Sciences, Guntur. As a part of this Seminar, Dr. K. Ranganathan gave introduction on Research Methodology and dissertation approach, framing research question developing hypothesis and study design. Dr. Umadevi spoken on sampling methods and sample size, parametric and nonparametric tests. Dr. Srinivas Pachava had spoken on the topic multivariate analysis, bias and confounding by Dr. Viswa Chaitanya. Around 104 participants have attended the program.

Name of the Workshop/Seminar:

Professional Competencies for Research

Date: 14-09-2019

Number of Participants: 42

Researchers need to develop a set of skills that enable them to progress properly in their career. Beyond research skills and abilities of their own field of knowledge, they require other skills that prepare them for their future career inside or outside the academia. Professional Competencies for Research was conducted by Medical and Dental Education Cell (MDEC), Sibar Institute of Dental sciences, Guntur, to all the first year postgraduate students of the institution. Dr. Srinivas Pachava, MDS, Professor and Head of the Department of Public Health Dentistry enlightened on various ethical aspects by his deliberation. Over 42 participants attended the Seminar and also had questionnaire session by the participants and finally ended with thank you note. Overall the Seminar was a grand success.
