

SIBAR INSTITUTE OF DENTAL SCIENCES, GUNTUR

Feedback – Action Taken Report

2017-18

Sl. No.	Stake Holder	Feedback	Action Taken	Name of the Program
1.	Student	Training on Implant Dentistry should be provided	A well-equipped Implant Dentistry clinic was already established in the college and Postgraduates from Prosthodontics, Periodontics and Oral Surgery are given training.	MDS
2.	Teachers	Esthetic Dentistry, Implant Dentistry, Laser Dentistry, Forensic Dentistry and Research Methodology as Optional Subjects (without examinations) at the U.G. Level may be included in the curriculum in view of increasing demand for these subjects in clinical setup as well as in academics.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms.	BDS
		Uniformity in Clinical Training by preparing Standard Operating Protocols	Standard Operating procedures are prepared in all departments	BDS
3.	Employers	Sterilization protocols should be included in the curriculum	An orientation program is conducted on Sterilization protocols regularly	BDS
4.	Professionals	Certificate Programs should be introduced in Advanced Endodontics, Esthetic Dentistry, Laser Dentistry and Implant Dentistry after BDS.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms.	BDS
5.	Alumni	CI-III, CI-IV, CI-V Amalgam Restorations may be replaced with Composite Restorations because of increase in demand for Tooth Colored Restorations and Advancement in the Material Sciences.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms. However Interns are trained on Composite Restorations	BDS
