

SIBAR INSTITUTE OF DENTAL SCIENCES, GUNTUR

Feedback – Action Taken Report

2018-19

Sl. No.	Stake Holder	Feedback	Action Taken	Name of the Program
1.	Student	To include all dental materials that are specialty specific ex: Gutta-percha, Bone grafts, Irrigants, Suture materials etc.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms. Faculty are also advised to orient the students on these materials	BDS
2.	Teachers	Ultra Sonic Scaling may be introduced in the Practical Scheme for IV BDS.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms.	BDS
		University may give the schedule for all three Internal Examinations at the beginning of Academic Year only.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms.	BDS
3.	Employers	Applications of lasers should be introduced in the curriculum	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms. However in the department of Periodontics Interns are trained on application of lasers	BDS
4.	Professionals	Research Oriented and Need Based Curriculum – Postgraduates should be motivated toward a more research based approach in their respective specialty, apart from their regular dissertations, which have to be submitted to the University. This can pave way for a more analytical and evidence based approach by them towards the public oral health problems.	Suggestion has been forwarded to university for discussion in board of studies regarding curriculum reforms. Postgraduate students are also encouraged to undertake short-term research projects	MDS
5.	Alumni	As silver amalgam is getting outdated more emphasis on composite restorations to be increased.	All the Interns are trained on composite restorations	BDS
